

ISO 9001:2015 (International Standard for Quality Management Systems) is a globally recognized standard for quality management systems. It provides a framework for organizations to consistently deliver products and services that meet customer requirements and enhance their overall performance. The standard is based on the Plan-Do-Check-Act (PDCA) cycle, which emphasizes continuous improvement. Organizations implementing ISO 9001:2015 can benefit from increased customer satisfaction, reduced waste, and improved operational efficiency. The standard is applicable to all types of organizations, regardless of their size or industry. It is a voluntary standard, but it is widely adopted by organizations seeking to demonstrate their commitment to quality and excellence.
