

Product Information

Product Description:

[Laser marking and engraving systems supplier China](#), Carmanhaas CO2 laser marking machine adopts CO2 radio frequency laser and high-speed scanning galvanometer system. The whole machine system has high marking accuracy, fast speed and stable performance, and can be applied to large-scale online processing flow production lines.

Product Features:

- (1) High-performance CO2 laser, good marking quality, fast processing speed, high productivity
- (2) The fuselage structure design is compact, the lifting platform is stable, the floor space is small, and the space utilization rate is high
- (3) Non-contact processing, no damage to products, no tool wear, good marking quality;
- (4) The beam quality is good, the loss is low, and the processing heat affected area is small.
- (5) High processing efficiency, computer control and easy automation
