## 》》》》》》Product Information

## Product Description：

SLA（Stereolithography）is an additive manufacturing process that works by focusing an UV laser on to a vat of photopolymer resin．With the help of computer aided manufacturing or computer aided design（CAM／CAD）software，the UV laser is used to draw a pre－programmed design or shape on to the surface of the photopolymer vat．Photopolymers are sensitive to ultraviolet light，so the resin is photochemically solidified and forms a single layer of the desired 3D object．This process is repeated for each layer of the design until the 3D object is complete．

CARMANHAAS could offer customer the optical system mainly includes fast Galvanometer Scanner and F－THETA scan lens，Beam expander，Mirror，etc．（Additive Manufacturing China）

## Technical Parameters:

Return Policy:

Should returns be required：
Step 1）Contact us with this website email．
Step 2）Provide as much detail as possible about the problem you are having．
Step 3）Authorization to return the item will be issued．
Step 4）Return the item for the agreed replacement or refund．

## Logistics：

（1）For Laser Optics order delivery，can be optional with DHL，UPS，FedEx，TNT，EMS，ets
（2）For Laser machine order delivery，can be optional with terms of EXWork FOB，CNF，CIF By Air or by Sea based on the buyer＇s forwarders or ours．

## 》》》》》 ${ }^{\text {FAQ }}$

Q1．Are you a manufacturer？
A1：Yes，we are professional and experienced manufacturer with our own molds and production lines．
Q2．How about quality of products？
A2：Our technicians and QC teams test the products one by one using aging line，professional devices and instruments to ensure the quality for all products．

Q3．How about price？
A3：We are a manufacturer and always offer our customers the most competitive prices．
Q4．How to place an order？
A4：Contact with online service，or sent email to us directly，we will reply to you with product price， specifications，packing etc．soon．Thank you．

Q5．May I send material to test marking performance？
A5：Yes！You are welcome to send material to test our superior quality and service．
Q6．Can I visit your factory？
A6：Yes，welcome to visit our factory at your convenient time．
Q7．How can I make OEM or ODM orders？
A7：We have different print processing for different OEM／ODM orders．Please contact us with online service or send email to us directly．

Q8．How should I pay for my orders？

A8: You can pay by T/T would be available for qualified bank and MOQ required for each order.
