

## Product Description

---

Carmanhaas [China Laser Welding Wholesales Factory](#) Scanner Welding System, it integrates functions such as Laser Source, Scanning Welding head, Beam Control, Visual Positioning, Safety system, Cooling system, Shutter, etc., has a high degree of integration. The galvanometer module used in the system has high precision and can ensure a small thermal lens effect during processing. The heat dissipation performance is fully considered in the design, and the phenomenon of focal thermal drift is further suppressed. The fully sealed structure design can ensure long-term stable work in harsh environments.

The specially designed control system can meet the needs of customers in different fields. The control system is highly integrated and equipped with a special safety system, making it safer, more convenient and reliable for customers to use.
